CITY OF WALKER – FENCE ORDINANCE

Section 109-154 FENCES.

Sec. 109-154. - Fences.

- (a) Fences not exceeding 72 inches in height may be constructed on a property line except within the waterfront setback area.
- (b) Fences not meeting the requirements of subsection (a) of this section shall require a conditional use permit.
- (c) Fences shall not be erected within 20 feet of the intersection of two public rights-of-way or where they create a visual safety hazard.
- (d) No fence shall be erected within road right-of-way or public road easement, nor within six feet off the shoulder of any public road, whichever is greatest.
- (e) Fences must be constructed of wood, metal, bricks, masonry, plastic or other materials designed for permanent outdoor fencing. Wood fences must be constructed of cedar, redwood or other decay resistant wood. Chainlink fencing of less than 11 gauge is prohibited. Fences must not be constructed from razor wire, snow fencing, plywood or materials originally intended for other purposes. Above ground electric fencing is not permitted. Barbed wire is permitted only on top of fences in nonresidential districts, a minimum of six feet above the natural grade.
- (f) All fences within CBD, GC, TC and WC shall be constructed of wood materials, or of a product similar in appearance and quality. Fencing used on residential properties in all zones may be of smooth wire. Fencing used for the screening of material stored outside shall be constructed of an opaque material (wood or cyclone fencing with screening slats). No barbed wire shall be used.
- (g) Fencing within industrial zoning districts may be constructed of wood, wood-like or metal fencing materials. Barbed wire security fencing shall be allowed by conditional use permit.

(Code 2000, § 154.044; Ord. No. 2009-05, 11-11-2009)
